

## **In Vain**

You are not here  
It's raining in vain,  
We won't be able to soak together...  
This river is in vain,  
Its struggle and flutter...  
We won't be able to sit by it and watch together...  
The roads go on and on  
They get tired in vain  
We won't be able to walk together...  
Yearning and separation are in vain  
We are far from each other  
We won't be able to cry together...  
I love you in vain  
I live in vain  
We won't be able to share life together...
