3. Dissemination Event

Date: 2/28/2019

Nº participants: 12 people

Location: Association of Teachers of the Municipality of Almada - Senior University

Target Audience : Staff

4. Feedback:

The dissemination of project activity Cosmos was very important because it allowed reviving memories of similar projects for the material and immaterial heritage collection of students of the 1st cycle.

It allowed to think about the possibility of constructing a Community Museum of the Association to preserve Memories and Traditions of the teachers of the Municipality of Almada.

It aroused interest in accompanying the works of training session of the Cultural Event of Monday, March 5, 2018, in the Mosteiro dos Jerónimos.

Those present were committed to spreading the information on their website and social networks.
