

## Press Release

### Dissemination Event

An information session concerning the COSMUS – Community Schools Museums project was held in Art School [Kallitehniko Gymnasio Lykeiakes Taxeis Ampelokipon] on 15th and 16th January 2020. The two-hour session took place at both of our buildings (on 15th January at Senior High School in Menemeni and on 16th January at Junior High School in Ampelokipi) and aimed at presenting the banners created by our partners for the 2nd Transnational Meeting of the Project, in Thessaloniki, in November 2019.

The banners were displayed on the walls of the corridors, classrooms and common rooms of our school by the students themselves. The whole school community had thus an excellent opportunity to get to know cultural details about the schools and communities of our partners. Students, teachers and parents were able to discuss the main idea of the school community museum, make specific suggestions through brainstorming and note down possible versions of the construction and organization of our own museum.
