

## Press Release

### Dissemination Event

A dissemination event concerning the COSMUS – Community Schools Museums project was held in Art School [Kallitehniko Gymnasio Lykeiakes Taxeis Ampelokipon] on 20<sup>th</sup> February 2020. The event took place at our School and aimed at presenting the created by our partners for the 2nd Transnational Meeting of the Project, in Thessaloniki, in November 2019. The dissemination event aimed to present the results of the 2nd International Meeting of the project and to share the progress of our work. Present were the Parents Association and every parent/ guardian of our school and stakeholders of our city.

This dissemination event gave us the opportunity to share with our community the banners completed by each partner for the aforementioned Transnational Meeting, in an effort to optimize the multicultural dimension of the project, by providing cultural information for each country. During this meeting we had the chance to keep the community up to date, to discuss the possible content of our own museum, to share opinions and to ask the support of the community to the project in any possible way.
